

## **Chilltainers**

The future of thermal packaging is here

#### Keep perishables cool

Chilltainers are made from specialised corrugated cardboard laminated with an impermeable reflective metallised polyester.

# The future of thermal packaging

# Chilltainers are the ideal replacement for Polystyrene/EPS.

Recyclable, thermal and space efficient durable, affordable and sustainable.

#### What are Chilltainers?

Specialised 'cool' thermal packaging and boxes that replace polystyrene, with increased strength, less bulk and are recyclable.

#### What are they made of?

Strong, specifically developed corrugated cardboard with a reflective impermeable metallised polyester laminate coating.

#### **How does Chilltainers work?**

The corrugated board provides airflow and a conductive layer of packaging, while the metallised polyester laminate reflects heat away and maintains coolness inside for longer.

Polystyrene

Chilltainer

#### **Key features**

#### **Quality Insulation**

Reflective insulation technology ensures your product arrives in top condition.

#### Ship Direct – Fresh

No transhipping or repacking required, maintaining cold and reducing microbial counts.

#### **Durable and Leakproof**

No breakages, leakproof and airline approved.

#### Flexible and Secure

Use ice or gel packs with your product in conjunction with a USFDA approved MetPET surface.

#### A simple choice.

#### Why choose Chilltainers?

- Proven thermal efficiency and temperature performance
- Highly recyclable, carbon neutral and sustainable
- Delivery can be made in nonrefrigerated vehicles
- Customers love the look
- Easy to assemble, safer and healthier to handle
- Flat pack for easy makeup, storage and re-use
- Surface supports high quality graphics for branding
- Strong, don't fracture and totally leak proof - airline approved
- Space efficient, slim-line profile reduces transport and storage costs.

# Pretty cool savings

#### Cost saving at every level

Producers, wholesalers, retailers, households and customers are demanding a better solution for the packaging and transport of perishable products.

#### **Cheaper Freight Costs**

Airline approved, non-leak
Chilltainers mean direct shipping
from producer to retailer. No
repacking saves time and money.

#### **Space Efficient**

Chilltainer's slimline profile means you can fit more product in each box and more boxes in each transport container.

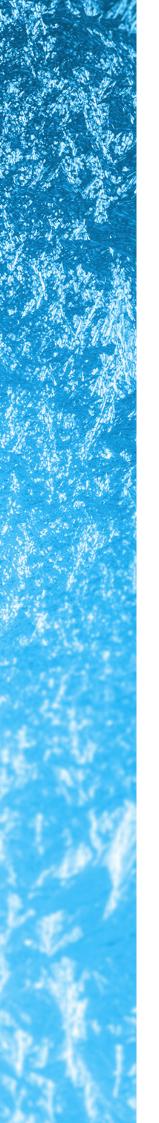

#### **Retail-Ready**

Chilltainers carries your product to customers, stylishly and effectively.

#### Recyclable

Chilltainers are 95-97% recyclable in standard paper recycling. Eliminate the disposal and environmental costs of Polystyrene/EPS.

#### "The economic and environmental cost of Polystyrene/EPS is enormous!"

#### Chilltainers vs Polystyrene

#### **More Boxes**

Fit up to 39% more boxes in an aircraft container with Chilltainers vs Polystyrene/EPS.

#### No Breakages

Super durable Chilltainers don't leak liquids (impermeable) and will not fracture and break in transit like Polystyrene/EPS.

#### **No Disposal Costs**

Chilltainers are readily recycled versus the economic and environmental cost of paying to dispose of Polystyrene/EPS.

#### **Lower Storage Costs**

Flat packs are highly space efficient and easily erect-able on demand.

#### **Direct Shipping Benefits**

Direct shipping saves time and money and avoids re-packing in export markets.

#### Stylish surface

**Retailers love the Chilltainer** look - they can be displayed directly instore.

#### Chilltainers is the solution

A recyclable, high performance alternative to Polystyrene/EPS that doesn't cost the earth.

# **Sizes & Specification**

ABBE will provide a customised solution, whatever your requirements. Alternatively, we can also provide the following standard products.

# **Home Delivery / Courier: Stocked Range Single Piece Chilltainers**

Style	Dimensions (LxWxH) mm	Volume (Litres)	Internal Volume (m <sup>3</sup> )
HD Small	366x283x105	11	0.01088
HD Medium	366x283x140	14	0.0145
HD Large	519x290x175	26	0.02634
Lobster	550x318x181	36	0.03166

## **Customising Chilltainers**

Customising Chilltainers is as easy as customising a cardboard box. The possibilities are endless. Shown below are a few examples of boxes designs. Whether they are 1-piece, 2-piece, self-locking or glued, Chilltainers provide a durable, thermally efficient and attractive option for chilled packaging. Talk to us about your requirements, we're happy to help.

#### **Examples of Chilltainer Packaging**

"Our own internal test results indicate that using Chilltainers - Thermal packaging can assist in maintaining food temperatures for up to 20% longer than a standard carton, which is great news for home delivery service"

# Chilltainers are used to transport a wide variety of chilled, perishable products.

Meats
