SUSTAINABLE PAPER SOURCING STATEMENT

As a leading Australian manufacturer of corrugated cardboard packaging, Abbe Corrugated Pty Ltd are FSC® and PEFC™ CoC accredited. Abbe is committed to environmentally safe manufacturing process which includes sourcing sustainable paper materials for our manufacturing process.

Abbe's commitment to supplying customers with sustainable resourced packaging uses a combination of Recycled and Kraft liners, these are sourced from Local and International Paper Mills Manufacturers that are ISO 14001:2004 and/or FSC (Forestry Stewardship Council) and/or PEFC (Programme for the Endorsement of Forest Certification) accredited.

The materials used to manufacture our corrugated cardboard packaging are considered 100% recyclable and can be sent to any recycling facility to be made into renewable fibreboard liners and/or corrugated cases. Further the materials are also biodegradable and will break down easily back into the environment.

Abbe constantly investigates opportunities to use materials and technology which maintains and/or enhances our manufacturing process, which may further minimise our environmental impact and maintaining customer's safety.
